

Soladey-eco

REVOLUTIONARY LIGHT ACTIVATED IONIC TOOTHBRUSH

THE BENEFITS OF USING SOLADEY

- The ionic process is activated simply by light and water (saliva is sufficient outdoors)
- Titanium dioxide rod produces ions to break down plaque
- Easy to use anywhere, promoting dental hygiene
- Lighter brushing action avoids tooth and gum abrasion
- Requires little or no toothpaste
- Use with your favourite mouthwash
- Works on tough dental stains, encourages whiter teeth

SOLADEY ADVANTAGES

- Convenient to keep in your car, bag and child's lunchbox
- Ideal for travel, camping and outdoor use, or where water is unavailable
- Cleans and refreshes dentures and braces
- Light and handy to carry, no electrical cords or batteries

SOLADEY'S EFFECTIVE ACTION

- Research shows that this ionic toothbrush is more effective for plaque removal than an ordinary toothbrush
- Removes plaque from hard to reach tooth surfaces
- Ionic action in the saliva is naturally antibacterial and continues after brushing
- Fights bacteria which can reduce dental caries and helps prevent bad breath
- Clinically proven to help restore healthy gums naturally

ENVIRONMENTALLY FRIENDLY SOLADEY

- Brush handle and titanium dioxide rod can last a lifetime
- Uses economical changeable brush heads (replacement recommended every 2-3 months)
- Replaceable brush heads reduce wastage of resources
- Contributes to the saving of water

USED DAILY BY MILLIONS OF SATISFIED PEOPLE WORLDWIDE!

TECHNOLOGY LIGHT YEARS AHEAD

- Use ANYWHERE
- Breaks down plaque
- Economical
- Yours for life!
